**Re: REQUEST FOR QUALIFICATIONS (RFQ)  
MECHANICAL ENGINEERING DESIGN SERVICES**

---

**I. INTRODUCTION**

The City of San José is seeking firms or individuals to provide Mechanical Engineering design services to the City's Department of General Services. The selected firm or individual will be required to provide multidiscipline mechanical engineering services for the project as identified below.

The Request for Qualifications (RFQ) identifies the general project scope and procedures for consultant involvement in the consultant selection process. Responding consultants shall have relevant experience and the ability to provide professional services for the project described below.

**II. PROJECT DESCRIPTION**

The Japanese Friendship Garden was originally built in 1968, with three connected koi fish ponds totaling approximately 40,000 square feet of pond area, within a public garden setting. The current water treatment system for the ponds was installed in 1993 and complete plans for the system are available. In 2009 the ponds were drained, cleaned, and patched.

The purpose of this upgrade is to improve the living conditions for the koi fish, and keep the ponds up to the minimum water quality necessary for the health of the fish.

The scope of this upgrade is to improve the existing ozone water treatment system, or suggest an alternate treatment system, improve the filter backwash system and critical parameter controls, and provide City staff with an improved user interface for control of the equipment.

Additionally, City staff requires a maintenance plan in order to correctly control, and maintain the water treatment and associated equipment, as well as the pond environment and water quality. The maintenance plan should include all aspects of maintaining both new and existing water treatment equipment.

Currently, the system has been controlled with a DOS based system, in which the user interface has been very difficult for City staff to use and understand. There is no effective pond overflow monitoring system in which to warn City staff of pond overflow. The City desires a complete and ungraded software system in which to monitor and control equipment, monitor and control water quality and levels in each of the ponds, as well as a user interface that City staff can use to perform all tasks that would keep the ponds in good condition.

Additional project elements in the water treatment upgrade MAY include:

1. A roof installed over the open patio to screen the equipment.
2. A 4<sup>th</sup> 1000 gallon fish treatment tank in addition to the 3 existing tanks. Additional patio area and fencing would need to be installed for the new tank.
3. New plumbing from the existing fresh water well, to the new and existing fish treatment tanks. This is to avoid using tap water for the fish treatment tanks.
4. A new access gate in the east side of the patio fencing.
5. Additional ventilation in the existing equipment shed.

### **III. TYPICAL CONSULTANT SCOPE OF SERVICES:**

All mechanical design consultant work shall be conducted in conformance with applicable California state law, including but not limited to, the Business and Professions Code sections 6735 and 7835 and in compliance with all applicable federal, state, and local regulations, such as those stated in Section III C.

All work performed under the consultant agreement shall be authorized by the City under the executed consultant agreement, which shall detail the nature of the services to be performed by the Consultant, the time limit within which such services must be completed and the compensation for such services. Such details shall include a description of the project for which the Consultant shall perform the services, the geographic limits of the project, the type and scope of services to be performed, the format and schedule for deliverables, the schedule of performance, and the schedule of compensation. Consultant shall not perform any services not identified in the consultant agreement unless authorized by a fully executed amendment to the consultant agreement. Do not mark your entire proposal as "Confidential".

The City will not disclose any part of any proposal before sending the final recommendation summary to General Service's Division Manager and/or Deputy Director as described in Section IV of this RFQ on the ground that there is a substantial public interest in not disclosing proposals during the evaluation process. ### **City of San Jose**

#### **Request for Contracting Preference for Local and Small Businesses**

Chapter 4.06 of the San Jose Municipal Code provides for a preference for Local and Small Businesses in the procurement of contracts for supplies, materials and equipment and for general and professional consulting services. The amount of the preference depends on whether the vendor qualifies as a Local Business Enterprise\* or Small Business Enterprise\*\* and whether price has been chosen as the determinative factor in the selection of the vendor.

In order to be a Local Business Enterprise (LBE) you must have a current San Jose Business Tax Certificate Number and have an office in Santa Clara County with at least one employee. If you qualify as an LBE you can also qualify as a Small Business Enterprise (SBE) if the total number of employees (*regardless of where they are located*) of your firm is 35 or fewer.

There are two ways in which the preference can be applied. In procurements where price is the determinative factor (*i.e. there are not a variety of other factors being considered in the selection process*) the preference is in the form of a credit applied to the **dollar value** of the bid or quote. For example, a nonlocal vendor submits a quote of \$200 per item and a LBE submits a quote of \$204 per item. The LBE receives a 2.5% credit on the quote, which equals approximately \$5 and thus the LBE will win the award because the quote is evaluated as if it had been submitted as \$199.

In procurements such as RFP there are usually a variety of factors evaluated to determine which proposal best meets the City's needs. In procurements such as these where price is not the determinative factor, an LBE or SBE will be given an **additional 5% to 10% points** in the **scoring** of their proposal.

The following determinations have been made with respect to this procurement: (for official use only)

<b>Type of Procurement</b>	<input type="checkbox"/> Bid	<input type="checkbox"/> Request for Quote	<input checked="" type="checkbox"/> Request for Proposal
<b>Type of Preference</b>	<input type="checkbox"/> Price is Determinative		<input checked="" type="checkbox"/> Price is Not Determinative
<b>Amount of Preference</b>	LBE preference = 2.5% of Cost	LBE preference = 5% of Points	
	SBE preference = 2.5% of Cost	SBE preference = 5% of Points	

In order to be considered for any preference you must fill out the following statement(s) under penalty of perjury.
